Economics Researcher (Remote)
Hire Feed • APAC (Remote)

Apply

• Stay current with advancements in economic theory, computational methods, and industry best practices

Required Skills & Qualifications:
• Proficiency in statistical software such as R, Python, or Stata for data analysis and modeling
• Strong foundation in econometrics, time-series analysis, and quantitative research methods
• Experience with large datasets and proficiency in SQL for data extraction and manipulation
• Ability to interpret economic data and derive actionable insights from complex analyses
• Excellent written and verbal communication skills for presenting technical findings to non-technical audiences

More About the Opportunity:
This role offers a unique opportunity to work with a global leader in the Technology, Information and Internet industry, contributing to high-impact economic research that shapes business decisions. The position is fully remote, allowing for location flexibility while collaborating with a distributed team of experts.

Equal Opportunity Employer:
We hire based on skills and expertise. All qualified candidates are welcome regardless of background, experience, or prior employment history. Applications are reviewed solely on demonstrated technical ability and qualifications.
